

## **Student Surveys Summary of 2023/2024 Activity**

The Student Survey Task Force started work in the middle of the fall 2023 semester by reviewing the report from the 2018 group. Through various stages of morphing and in consultation with IRO, we drafted constructs and possible items that were sent out to faculty and administrators for their feedback. We received responses from 88 faculty and 11 administrators giving input on the constructs and items we shared. The task force is now sifting through all the data collected and will be revising the survey items accordingly over the few weeks.
